

James LeBron

Impact Learner

James LeBron, 17 years old and Center City High student, wishes to aid his community through volunteering/charity work. He currently lives with his parents and younger brother.

Growing up, his parents often were unemployed. They depended heavily on aid from charities, benefits, and other similar services just to keep afloat. After finally achieving financial security through their own hard work and help from community services, he feels compelled to return the favor and in turn decided to help other people who are financially unstable like he was.

Because of the current state of the world, volunteering in person is difficult. This makes it difficult to get qualified for different volunteering tasks. Thus, James is trying to look for an e-learning platform that can help him get started. He wishes to invest some of the money he earned through part-time jobs for e-learning platforms in order to gain more knowledge and experience.

Rafael Smith

Impact Learner

Rafael Smith, 31 years old, founder of the Lucky Clover Charity. He grew up in a country full of poverty and moved to Canada at the age of 12. Having no prior education, he struggled in school. However, his enthusiastic ESL teachers who volunteered for his extra tutoring sessions ensured that he caught up quickly. Growing into an adult he was always thankful to his teacher's selfless acts. His lack of education as a child and his admiration for his old teacher gave him the motivation of starting a charity to help other children, who are in the same position as he was years ago, to have a chance at a better education.

Due to not having any experience in organizing a charity, Rafael needed somewhere where he can learn about the organizational process. But due to the state of the world, Rafael had difficulty in finding teachers using traditional learning platforms and thus he turned to e-learning. However, he does not know which platform to use. His main requirements are that it is simple to use, has a large community, and has a large list of people to seek help from.

Sarah Brown

Impact Learner

Sarah Brown, 24, is a Learner for U Impactify, and a teacher for the Catholic Secondary East High French Collegiate Institute of Ontario (CSEHFCIO). She graduated from psychology and education double major program 2 years ago, recently completed her teaching collage program, and finally got her teaching certificate. She is very skilled in her fields and wants to find a way to use them to help others. She has just joined U Impactify to be a Impact learner. Sarah is eager to learn new teaching methods through U impactify.

As more educational falculties begin delivering material online instead of in person, Sarah realized that she does not have enough experience in online education to provide the same level of education as she would in person. She turns to U impactify hoping that she can learn how to better use e-learning to teach others. She hopes that the service will be easy to use and understand.
